of investors
are optimistic about
emerging markets
equities for 2018

Source: Research conducted by Opinium Plc on behalf of Templeton Emerging Markets Investment Trust between 31st July to 4th August 2017.

This document is intended to be of general interest only and does not constitute legal or tax advice nor is it an offer for shares or invitation to apply for shares of the Franklin Templeton Funds (a UK-domiciled OEIC), (the "Fund") or Templeton Emerging Markets Investment Trust ("TEMIT"). Nothing in this document should be construed as investment advice.

The value of shares in the Templeton Emerging Markets Investment Trust (TEMIT) and any income received from it can go down as well as up and investors may not get back the full amount invested. There is no guarantee that TEMIT will meet its objective.

TEMIT invests in the equity securities of emerging markets companies. Emerging markets have historically been subject to significant price movements, often to a greater extent than more established equity markets. As a result, the share price and net asset value of TEMIT can fluctuate significantly over relatively short time periods.

Other significant risks include borrowing risk and share price discount to NAV risk. For more details of all the risks applicable to TEMIT, please refer to the Key Information Document, Investor Disclosure Document and the risk section in TEMIT's Annual Report, which can be downloaded from our website - www.temit.co.uk
