## INVESTMENT POLICY

Templeton Emerging Markets Investment Trust (the “Company”) seeks long-term capital appreciation through investment in companies in emerging markets or companies which earn a significant amount of their revenues in emerging markets but are domiciled in, or listed on, stock exchanges in developed countries (“Emerging Markets Companies”).

It is expected that the majority of investments will be in listed equities. However, up to 10% of the Company’s assets may be invested in unlisted securities. In addition, while it is intended that the Company will normally invest in equity instruments, the Investment Manager may invest in equity-related investments (such as convertibles or derivatives) where it believes that it is advantageous to do so.

The portfolio may frequently be overweight or underweight in certain investments compared with the MSCI Emerging Markets Index (the “Benchmark”) and may be concentrated in a more limited number of sectors or geographical areas than the Benchmark. Investments may be made in Emerging Markets Companies outside the Benchmark that meet the investment criteria.

Whilst there are no specific restrictions on investment in any one sector or geographic area, the portfolio will be managed in a way which aims to spread investment risk. The portfolio will typically contain between 50 and 100 individual stocks but may, at times, contain fewer or more than this range. No more than 12% of the Company’s assets will be invested in the securities of any one issuer at the time of investment, save that any investment in unlisted securities of any one issuer will be limited to no more than 2% of the Company’s assets, measured at the time of investment.

The maximum borrowing will be limited to 20% of the Company’s net assets, measured at the time of borrowing.

No more than 10%, in aggregate, of the value of the Company’s assets will be invested in other listed closed-ended investment funds.

In accordance with the Listing Rules, the Company will not make any material change to its published investment policy without the prior approval of the FCA and the approval of its shareholders by ordinary resolution. Such an alteration would be announced by the Company through a Regulatory Information Service.
